VOLUME 8—NUMBER 41

GLEANINGS FROM THE GLADES

Threshold Out In Belle Glade
BY PHIL CLARKE

ZONING ORDINANCES are set to come into existence the healthy expansion of a community. Where there are no zoning provisions, the natural growth of that community is seriously hampered. It seems about time that some provision is made for the town of Belle Glade. There are an increasing number of complaints by resident owners, in the business district, against the density and nature of industrial occupation. It is said that smoke is being poured into the windows and doors of apartments and that property is being devalued as a result.

At the same time, we are fortunate enough to possess these commercial enterprises within our own town, paying taxes and rendering services to the public. We cannot afford to let these up and leave for so do we have to discourage all future commercial and industrial development. And certainly the progress of any town is measured in terms of new houses.

There remains but a single solution to the entire perplexing problem, and that is the establishment of zoning laws for residential, office, or industrial concerns, another for residential, and so on. It is only with the introduction of such a system that prospective home-builders will be able to plan with definite knowledge of what can be done with their property. We cannot afford to let these up and leave for so do we have to discourage all future commercial and industrial development. And certainly the progress of any town is measured in terms of new houses.

For the protection of our present home-owners and actual home-builders, a zoning ordinance being drafted in our community, is being prepared by the town fathers to urge to pass a set of zoning ordinances. They can go wrong with them but a lot of people will go wrong without them.

OUR STREETS are swiftly approaching a state of complete disrepair. The town street department has used all available funds in an attempt to maintain them but with the heavy traffic, and numerous short of compass, the street building and rebuilding program will suffice to save us from becoming altogether stuck in the mud!

H. T. Holloway, local contractor, told town council Wednesday night that \$10,000 wouldn't begin to take care of the situation. It appears likely that the only means of raising revenue in part of the town will have to be the special assessment of property owners for two-thirds of the cost and the raising of the other one-third by the town.

Those convicted of driving while drunk, using, or aiding in any criminal act, being arrested for hit-and-run driving, a driver's license may also be suspended in cases of habitual drunkenness or forfeiture of bond three times.

Operators convicted of driving while suspended or license are liable to a maximum penalty of six months in jail and a fine of \$500.

Agent Measures For Soil Program

Crews from the county agent's office are at work this week in the eastern section of town, measuring land for compliance with the Federal soil conservation program. County Agent M. U. Mounts is in charge of the work.

Work will start next month in the western section of town area where land in this section will be measured. All land measured now will be checked in the fall to determine owners' compliance with program requirements.

Mr. Mounts said that all farmers who want to be included in the program for 1940, should register their name at his office so measurement of their lands can be accomplished while the crews are on the scene.

Less Than 3 Miles To Complete Road 25

Only 2½ miles of top surface on Road 25, between Five Mile Bend and Six Mile Bridge remain to be completed. The road is open to the public, it was announced this week. The Eberbach Construction Company has been making steady progress in the surfacing work despite heavy rainfall.

Contractor H. T. Holloway, who recently completed the grade work on the stretch of Highway 25, is moving his dredge and drill large equipment to Twenty Mile Bend where it will be tied up until needed again.

WELLS ASKS REGISTRATION

Mayor Arthur Wells Wednesday night urged all citizens of Belle Glade to register their cars, voting and tax lists and all civic groups to cooperate in turning out all of the eligible voters for registration.

You have ever noticed the enthusiasm a man can work up when he is trying to sell you something he doesn't want?

Driver's License Is Mandatory October 1st Under New Law 1st Under New Law

Severe Penalties For Those Who Do Not Comply With Act

Prompted by statewide discussion of the new automobile driver's license enactment, Asher Frank, director of the State Safety Council, has released complete information on the new law.

It is stated that while the law goes into effect August 1, the deadline for obtaining licenses will not be reached until October 1. "Between those dates," he said, "anyone holding an application blank from your county office and fail it in stating that you have driven a car one year or more without an accident, that you have never violated any law, that you are of sound mind, not a user of narcotics and that your sight and hearing are good and finally, that you know the rules of the road."

He added that every license application must be countersigned by the county judge without a fee to the applicant.

Frank said from the start of the act, he will be in touch with the attorney general, the state attorney, and the fire departments of the town. Attorney H. D. Cook was instructed to investigate legality of various means of raising revenue for the program.

Additional steps will be taken to see if employed and indigent persons in Belle Glade who are unable to purchase sufficient groceries, the council also agreed to make changes in the park areas, including a road to "police officer."

A total of \$20 was approved for payment from the town government fund.

Council Prohibits Erection Of Oven

The Belle Glade town council Wednesday night prohibited Horace Starling, owner of the Curb Market, from erecting a barbecue oven adjacent to his building on either Avenue A or Second Street. Mr. Starling had applied to the council to allow installation of the oven, but his request was met by strong objections from N. D. Lloyd, Belle Glade president, who said the barbecue ovens were causing hazards to the health of the community.

It is said that while the law goes into effect August 1, the deadline for obtaining licenses will not be reached until October 1.

sometime, to stay in New York awhile. We will be in Jacksonville again around October.

We are interested in an amusement park near Antwerp. A "Sea Cloud" hotel takes us ashore.

We are working very hard these days, travelling mostly at night and using the rails. The question is, can we do this? The improvements made during the summer months, O. B. Manning, chairman of the board, expects the program to be completed this summer.

The main roads in the district are being cleaned out and new laterals are being dug in the lower areas to allow drainage throughout the entire area.

The water capacity of the district will be increased to 100,000 gallons per minute as a result of the installation of a new 125 h.p. engine and pump. This will provide greater pumping units to carry water from the district into Lake Okeechobee.

No merger is being planned with any other district; it was stated by Mr. Manning.

Someone told me, long years ago that football is a game,

South Shore Work Will Be Completed

DR. WHITE TO SPEAK AT Methodist Children's Home at Benbow's Springs, Fla., will describe the work being done and the various activities performed at the Home on Sunday morning when we will fill the pulpit of the Community Methodist Church at 11 o'clock with guest minister.

CHEVROLET
IT'S THE MOST ECONOMICAL CAR
IN ITS FIELD!

And remember this—Chevrolet's 85-h.p. valve-in-head engine excels in performance as well as economy.

TESTIMONIALS of mechanics have subjected 1939 Chevrolets to the Millet Meter test. In cars with engines feeding a measured quantity of oil to the engine, these thousands have seen how the 1939 Chevrolet stretches out each gallon of fuel to make it go farther—extra miles farther.

What about oil? The fact is that the 1939 Chevrolet is unbelievably economical of oil—because the oil stays in the engine.

As to upkeep and tires—every motorist knows of Chevrolet's traditional record for low cost of maintenance.

See your Chevrolet dealer today! Take the wheel and learn of Chevrolet's remarkable economy.
